# Shrinkwrap & Shrink Domes

## Polyvinylchloride (PVC) Shrink Wrap

- \*75 Gauge.
- \*Shrinks best at lower temperatures.
- \*Excellent crystal clear clarity.
- \*Complies with F.D.A. requirements for surfaces which may come into contact with food.
- \*45% / 45% Shrink Factor.

## Shrink domes can be used two ways:

1. Pull the dome over the top of the item and secure the loose ends on the bottom with tape. Then shrink the entire item.
2. Or, drop the item into the dome, gather and secure the loose ends at the top. Shrink only the portion below the gathered material then finish by tying on a bow.
